Smart encoders & actuators

Regulation 1907/2006/EC of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction on Chemicals (REACH)

The manufacturer
LIKA ELECTRONIC SRL

with reference to Regulation 1907/2006/EC declares that:

- Lika Electronic Srl does not produce or import chemical substances (as such or in preparations/mixtures) and therefore has no registration obligations in accordance with art. 6, c.1;
- the articles produced or supplied by Lika Electronic Srl do not intentionally release chemical substances under normal and reasonable conditions of use, so there are not registration/notification obligations under art. 7, c.1, 2, 3;
- Lika Electronic Srl in relation to the candidate substances of very high concern (SVHC) is in constant contact with its suppliers to obtain the required information, in particular if in the items delivered there is the presence of these substances in concentration greater than 0,1% w/w;
- Lika Electronic Srl will announce and inform the recipients of the articles for the presence of SVHC substances exceeding the concentration of 0.1% w/w, according to art. 33 of the Regulation;
- Lika Electronic Srl is aware of SCIP notification obligations for presence of SVHC substances, in concentration >0,1% w/w, in its products;
- Lika Electronic Srl is aware of restrictions of use of substances belonging to the attachment XVII of the Regulation.

The articles that contain one or more SVHC substances above 0.1% w/w will be communicated upon request.

This information is provided to the best of Lika's knowledge and belief based on the documentation received from suppliers and available. No chemical analysis have been made in materials.
